

MEDICAL ALARM

Unique in North America

The Maestro is a modern design of a Medical Emergency/Fire Alarm System to be used in the homes of the elderly, as well as the physically handicapped and for Home Care & Hospitals. With its large sized red "HELP" button, one press of the button can send an emergency signal for immediate notification that assistance is needed.

Emergency Voice Dialer

Sends an Emergency Voice Message to Relatives, Friends, Cellular phones etc...

Two Way Communication

Allows to talk and listen-in to what is happening through the built-in microphone & speaker.

Mobility Check

Monitors User Movement

Fall Sensor

When a fall is detected, a call is automatically dialed to your personal contact telephone list.

Remote Programming

No Need for a Technician to come to your home

Button

Waterproof

The smallest in the market
operating range of 600 feet
